WINE OF JAPAN (SAKE)

Premium sake has easily proven itself to be worthy of appreciation on the same level as fine wine. The fragrances, flavors, complexity, and nuances can fascinate and draw you in.

SAKE TERMINOLOGY

Junmai Dai-Ginjyo: At least 50% of the original rice grains are polished off to make Junmai Dai Ginjyo. This is the highest grade of sake.

Junmai Ginjyo: Junmai Ginjyo uses no more than 60% of its original rice grain. This is the second highest grade of sake.

Junmai: Junmai shu means "pure sake" made only from rice water and Koji. This is the traditional Japanese method of sake production since old times.

Sparkling Sake: This sparkling sake using 60% polished "Yamada Nishiki" rice is fermented in the bottle.

Nigori Sake: Nigori is a cloudy sake that has not pressed fully from the fermenting rice solids. It has a milky-white complexion.

HOT SAKE

HOUSE

Hot Sake (Sm) \$4.5 (Lg) \$9
